

# HILDEBRAND LOCK AND DAM

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG.

## Hildebrand Lock and Dam

Hildebrand Lock and Dam is one of nine navigation structures which provide for year-round navigation on the Monongahela River between Pittsburgh, Pa., and Fairmont, W.Va. Hildebrand Lock and Dam is operated by the Pittsburgh District.

Hildebrand Lock and Dam is located at river mile 108.0, six miles southwest of the city of Morgantown, W.Va., and near Hildebrand and Round Bottom, W.Va.

Hildebrand Lock and Dam was constructed between 1950 and 1960 and eliminated the older Locks 12 and 13 which had been in place since 1903. The navigation facility was opened in March 1960.
